What's Rotary?

Rotary is a well respected world-wide volunteer organisation of 1.2 million business and professional people of all ages who care about their community and the world at large and want to use their talents, skills and energy to “give something back” to improve life for all.

Around 32,000 Rotary Clubs in 200+ countries raise money and undertake projects to address today's challenges whilst encouraging high ethical standards in business and private lives.

Founded in Chicago in 1905 as the world's first volunteer service club, Rotary quickly expanded around the globe along with its unrivalled reputation for delivering what it promised.

Today, club members meet to plan community and service projects, discuss local and international issues and to enjoy the friendship of fellow members.

Rotarians are sociable people who are always looking to extend their business and social networks, make new friends and acquaintances and have fun from life.

Rotary clubs are non-political and open to everyone regardless of race, culture or creed.

Can you empathise with these ideals?

We are looking to start a new Rotary Club within the area covering Hampton, Sawtry, Yaxley, Stilton and Norman Cross and will be holding two information meetings at the Premier Inn, Norman Cross at 7.30pm on Wednesday 25th January and Thursday 9th February.

Would you like to know more?

Then contact the following Rotarian to get more details.
